

It should be easy to be a Medicare electronic submitter

Make the switch in 20 minutes!

Secure EDI File Transfer

ClaimShuttle transports your electronic files to and from your Medicare carrier using a secure Internet connection. Send your claims, receive and view your remittances and acknowledgements, all using our easy to use web browser interface. Or, automate the process using Secure FTP or WebDAV protocols.

Keep your existing software that creates your EDI files: PC-ACE Pro32, Express Plus, SolAce EMC, etc. ClaimShuttle currently supports transmissions to NGS, CEDI, and NHIC Medicare with others coming soon.

Medicare 3270 Access - Nationwide!

ClaimShuttle supports secure Internet access to the Medicare mainframe applications like FISS/DDE, PPTN, and DME Claim Status Inquiry. These applications are primarily used by Part A and DME submitters to do claim and payment inquiries, including DME Same or Similar checks.

Remittance and Acknowledgment Viewer

User-friendly viewing of 997 acknowledgments and 835 remittances. ClaimShuttle turns the EDI data stream into easy to read reports automatically.

Organization-minded HITECH Security Controls

Organization-minded HITECH security controls allow unlimited users with granular security permissions and an audit trail to keep security-related events always visible.

Ready for 5010 Today

Support for 5010 transactions including claims (837P & 837I), claim confirmation reports (277), acknowledgements (999 & 824), and remittances (835).

Secure Internet Access

Secure communications from any computer with no VPN or other software required. ClaimShuttle uses 256-bit SSL encryption.

It's So Easy

Just unplug your modem and start using ClaimShuttle. There is no software to install and you can be up and running in minutes. You will wonder why you didn't ditch that modem sooner!

Access from Anywhere

Easy to use web browser interface to manage your account and electronic files from anywhere. Automatically identifies file types and shows useful icons and information to help you be more productive.

The screenshot displays a 'File View' window with a list of EDI files on the left and a detailed remittance report on the right. The report includes a header for 'MEDICARE SERVICE CENTER' and 'LOCAL AMBULANCE', followed by a table with columns for 'FEW PROV ID', 'SERVICE', 'POS', 'UNITS PROC', 'MODES', 'BILLED', 'ALLOWED', 'DEDUCT', 'COINS', 'OFFICE AMOUNT', and 'PROV PAID'. A summary table at the bottom shows totals for billed, allowed, deduct, coins, total, and prov paid amounts.

ClaimShuttle is Great!

I just wanted to let you know how impressed I am with this service. Just as you promised, I was up and running within 20 minutes of our initial conversation. I was really concerned that this transition was going to be difficult and costly, but I was wrong on both counts. My phone line was costing 4 TIMES MORE per month than the fee for using ClaimShuttle, and it couldn't have been easier to set up and get going. Your product is everything you said it was. I am a very small company, and have actually now reduced my overhead by going with you guys!
