Testing

Once you have received your Submitter ID and password from Noridian, please call the Ivertex Support Team and set an appointment for a Mailbox setup and Test Transmission to Noridian.

Please have 25 test claims ready for testing. Test files should consist of a variety of claims that represent the type of claims you will be submitting once production status is achieved. Test claims will not be processed for payment but will be validated against production files; therefore, they must contain valid patient procedure, diagnosis, and provider information.
